Are You A Parent Who Relates To This?

We believe that every child is different and requires a different approach in intervention. At Communicare we provide a tailor made program that is specific for your child's needs.

YOUR CHILD'S FUTURE STARTS HERE

OUR MISSION

The mission of Communicare is to help create self-confidence and independence of special children through early intervention, customized education, training and skill development using best global practices and experts in their domains.

WE ARE COMMUNICARE

India's first chain of schools for children with special needs and physical disabilities. Our mission is to be the pivot for Inclusive Education of children with special needs. Our goal is integration of our children in to mainstream schools by providing intensive pre school intervention through global best practices.

WHY CHOOSE US

At Communicare, we understand your concern more than anyone else. Communicare is evolved to understand the child and the parent and work on the child's development and learning, supported by parental training and result-oriented strategies to ensure Independence and Effective Integration into the Society. At Communicare, advocacy of Inclusion and Diversity is the larger vision for us.
